They have been abusive to me as an agency here as well and it appears to be in reference to the Maritime Law Cult/ Sect stemming from LaSalle County, Illinois. They are abusive as an entire Law enforcement agency / county. I am in dire need of help and saving from their abuse mechanism. Can you please help eliminate me from involvement with them. before its too late, preferrably? Things aren't going to get any better over there in LaSalle County, Illinois and you can help make the world a better place by having them abide by law standards. Each day that goes by is another one with the wrong authority members in charge and the damage that can be done is detrimental to our countries wellness.

Sincerely,
Julia Eickmeier
